Sec. 2. *Declaration of Policy.* – (a) It is hereby declared as a policy that the Province of Bataan shall advance the public good and general welfare, and promote the interest of the community and the Province within the framework of sustainable and integrated development, and effective constructive engagement and meaningful people’s participation in local governance.

(b) Public-Private Partnerships (PPPs) shall be pursued by the Province consistent with and in furtherance of the vision and mission of the Province which state that:

VISION

MISSION

Excellent public service towards a better quality of life for all.

Sec. 3. *Operative Principles.* – The accomplishment of the stated policy shall be guided by the following principles:

- (a) The Province, pursuant to Sections 1, 2 and 5, Article X of the 1987 Constitution, is a territorial and political subdivision which enjoys local autonomy and fiscal autonomy. Under Section 3, Article X of the 1987 Constitution, local autonomy means a more responsive and accountable local government structure instituted through a system of decentralization. Fiscal autonomy means that local governments have the power to create their own sources of revenue in addition to their equitable share in the national taxes released by the national government, as well as the power to allocate their resources in accordance with their own priorities.
- (b) The general welfare and the public good shall always be promoted and that transparency, public and social accountability mechanisms and approaches shall be integrated in PPPs from inception to implementation.
- (c) The Province exists and operates in its governmental and proprietary capacities thereby making the Province an agent of and is therefore accountable to the State and its community. The role of the Province both as a regulator of a business and as implementer of a proprietary undertaking must be clearly delineated.
- (d) The Province must develop into a self-reliant community, and as such, is in a better position to address and resolve matters that are local in scope. The Province is under the supervision of the President and under the control of Congress.

ALBERT S. GARCIA
Provincial Governor

- (e) Under Section 18 of Republic Act No. 7160 or the Local Government Code of 1991 (LGC), the Province shall have the power and authority to acquire, develop, lease, encumber, alienate, or otherwise dispose of real or personal property held by it in its proprietary capacity and to apply its resources and assets for productive, developmental, or welfare purposes.
- (f) Under Section 22, paragraphs (a)(5) and 22 (a)(6) of the LGC, every LGU, as a corporation, has the power to enter the contracts, among others, subject to limitations under the law.
- (g) Under Section 22 (c) of the LGC, the Governor may enter into contracts on behalf of the Province with the prior authorization by the Sangguniang Panlalawigan. The participation of the Sanggunian is indispensable in the adoption and implementation of a PPP arrangement.
- (h) Under Section 22 (d) of the LGC, the Province enjoys full autonomy in the exercise of its proprietary functions and shall exercise the powers expressly granted, those necessarily implied therefrom, as well as powers necessary, appropriate, or incidental for its efficient and effective governance, those not otherwise prohibited by law and those which are essential to the promotion of the general welfare.
- (i) Under Section 25 (b) of the LGC, the Province may collaborate or cooperate with other local governments, national government agencies, government-owned and controlled corporations, government instrumentalities and government corporate entities for the implementation of local projects.
- (j) Under the charter of the Province, Sections 16, 17, 19 and 129 of the LGC and other statutes, the Province has been given the responsibility and mandate to exercise devolved and delegated powers.
- (k) The Province, under Section 106 of the LGC, is mandated to draw up and implement a comprehensive multi-sectoral development plan.
- (l) PPPs shall be pursued by the Province consistent with its infrastructure, development, investment, environmental and governance framework embodied in relevant policies, plans, ordinances and codes.
- (m) The Province, as a partner in a PPP arrangement, may provide equity, subsidy or guarantee and use local funds; and the usage thereof for a PPP project shall be considered for public use and purpose.
- (n) Under Sections 34, 35 and 36 of the LGC and in the exercise of its powers, the Province may enter into joint ventures and such other cooperative arrangements with people's and non-governmental organizations to engage in the delivery of certain basic services, capability-building and livelihood projects, and to develop local enterprises designed to improve productivity and income, diversity agriculture, spur

rural industrialization, promote ecological balance, and enhance the economic and social well-being of the people; provide assistance, financial or otherwise, to such people's and non-governmental organizations for economic, socially-oriented, environmental, or cultural projects to be implemented within its territorial jurisdiction.

- (o) The Province, under Section 3 (l) of the LGC, is duty-bound to ensure the active participation of the private sector in local governance.
- (p) The right of the people to information on matters of public concern is guaranteed under Section 7, Article III of the 1987 Constitution. Furthermore, it is the policy of the State to allow full public disclosure of all its transactions involving public interest such as PPPs under Section 28, Article II of the 1987 Constitution.
- (q) The people's right to effective and reasonable participation and public trust provision under Section 16, Article XIII and Section 1, Article XI, respectively, of the 1987 Constitution guarantee and empower civil society groups to have effective and meaningful participation in the regulation and management of PPP projects.

Sec. 4. *Rationale for PPP.* – PPPs shall be promoted to provide more, better, affordable and timely services to the community. In pursuing PPPs, the Province shall be guided by the following reasons and drivers:

- (a) PPPs shall be undertaken in furtherance of the provincial development and physical framework plan.
- (b) PPP is an essential part of the overall infrastructure reform policy of the Province. By encouraging performance-based management of the delivery of public services applying commercial principles and incentives whenever possible, by introducing competition in and for the market, and by involving users and stakeholders in the decision-making process, infrastructure and regulatory reform shall be achieved.
- (c) PPPs should be adopted to address a pressing and urgent or critical public need. Under the principle of "Additionality", the increased economic benefits to consumer welfare of having needed public services and infrastructure accessible now because of the PPP, rather than having to wait until the Province could provide the public services much later. PPP would also encourage the accelerated implementation of local projects.
- (d) PPPs can be adopted to avoid costs and public borrowing. By contracting with the private sector to undertake a new infrastructure project, scarce provincial capital budgets can be directed to other priority sectors such as social services, education, and health care.

ALBERT S. GARCIA
Provincial Governor

- (e) PPPs allow for technology transfer, and improved efficiency and quality of service. These could be valuable contribution of the private sector in local governance.
- (f) PPPs should be feasible and affordable, demonstrating the need for the project, broad level project costs estimation, and indicative commercial viability. The assessment of affordability shall be the cornerstone for all PPP projects, both to the Province and the general public.
- (g) PPP Projects should be bankable. High participation costs, unreasonable risk transfer or lengthy and complex contract negotiations must be avoided. A cost recovery pricing policy attractive to the private sector must be in place; provided that the same will not be disadvantageous to government and public interest.
- (h) PPP Projects should provide value for money and good economic value as far as practicable, including allocation of risks to the party best able to control, manage, mitigate or insure these risks, and maximization of the benefits of private sector efficiency, expertise, flexibility and innovation.
- (i) PPP Projects must provide economic and social benefits and should be evaluated on this basis rather than on purely financial considerations. The Province remains responsible for services provided to the public, without necessarily being responsible for corresponding investment.
- (j) PPP Projects must give consideration for empowerment of Filipino citizens as a strategy for economic growth and sustainability and must thus provide for the participation of local investors to the furthest extent practicable given the nature of the project. The Province shall also ensure the hiring and employment of local labor in the PPP venture.
- (k) Procurement of PPP Projects must be competitive and must be undertaken through open competitive bidding. Competition must be legitimate, fair and honest. In the field of government contract law, competition requires, not only bidding upon a common standard, a common basis, upon the same thing, the same subject matter, the same undertaking, but also that it be legitimate, fair and honest; and not designed to injure or defraud the government. Where competitive bidding cannot be applied, a competitive process ensuring both transparency and economically efficient outcome must be employed.
- (l) The regulation of the PPP shall be pursuant to the PPP contract and exercised by the appropriate regulatory authority. A duly executed and legal PPP Contract shall be respected and not impaired, and shall be binding on the successor administration pursuant to the provision on corporate succession. Procedures, activities and steps duly undertaken by the Provincial Governor, PPP Selection Committee, Sangguniang Panlalawigan and other bodies pursuant to this Ordinance shall be continued by the successor Administration. Any amendment or revision to

ALBERT S. GARCIA
Provincial Governor

this Ordinance by the next Administration shall not in any way prejudice vested and contractual rights of the Province and the PSPs as to the substance of agreements signed, certifications issued, resolutions issued and procedures undertaken.

- (m) To provide efficient public service, the Province must ensure, through stronger performance management and guidance, proper implementation of PPP contracts that will result in value for money, on-time delivery of quality services to the public, achievement of government policy goals, all within sustainable and integrated development.

Should no matching offer be received within the stated period, the PPP Project shall be awarded to the comparative PSP submitting the most advantageous proposal.
