ACCOMPLISHMENT REPORT

Province of Bataan

PROVINCIAL INFORMATION TECHNOLOGY OFFICE

Bataan Vaccination System

In 2021, our office has played a vital role in implementing BataanVax – a Vaccine Registration System. This software facilitated a streamlined vaccination process and offered features such as a downloadable database of vaccinated citizens with the ability to print vaccination cards. Working in close coordination with the Provincial Health Office, our dedicated team rendered additional manpower and technical assistance to various vaccination sites in different municipalities of Bataan to support our Governor's initiative to encourage vaccination among Bataenos.

RPT Tax Bill Generation System

Final Report
Milestone 5 – Means of Verification

After conducting several meetings and continuous coordination among project members, the Provincial Information Technology Office has achieved the target of generating Current and Delinquent Statement of Accounts through the guidance of the Provincial Treasurer's Office. Furthermore, the 4th and 5th we have also surpassed the additional targets (Advanced and SHT SOA) with working prototypes already added to the system for enhanced functionality.

October 14, 2022 Meeting with PTO

As of October, majority of the pending tasks are focused on refining the templates, adding of minor features such as tagging, filtering, and visual changes for reports, as well as deletion of sample data before the system is introduced to the end-users.

During the most recent meeting, the group has also decided to come up with an instructional video that will serve as the reference for the end-users as they go through each module of the RPT Tax Bill Generation System.
